Syllabox Cards

A special thanks to Gerbrand Poster, III, a veteran Greenville Literacy Association English as a Second Language (ESL) tutor, Nancy D. Renn, Greenville Literacy Association Program Director, and the committee of ESL tutors who diligently worked on the format and content for the Syllabox. Thank you to Greenville Women Giving for the 2007 grant to fund the production of the project.

The goal of the Syllabox is to provide consistency in lesson content using existing materials and resources while allowing ESL tutors the freedom to exercise their own style and creativity. The Syllabox cards are designed to maximize student understanding and to improve communication between tutors and substitutes. Using the five Syllabox sections — Topic, Structure, Verbs, Prepositions, and Pronunciation — a tutor may develop a cohesive theme-based, level-appropriate lesson plan for participants in ESL Levels 1 - 4. The materials and activities contained in these Syllabox cards combine the best practices of tutors and staff, encourage the use of a wide variety of resources, and emphasize language development and communication skills. The Syllabox is intended for use with the ESL Resource Book located in each Greenville Literacy Association Learning Center.

The Syllabox and its contents are the property of the Greenville Literacy Association, Inc., and all rights are reserved. Therefore, the Syllabox may not be copied or reproduced in any form. For information about purchasing the resource at a minimal production cost, contact the Greenville Literacy Association at 864-467-3456 or on the website www.greenvilleliteracy.org.
